

NICOLAI  
D I A M A N T

---

Nicolai Diamant was established in 1984 as a family Italian company. It started in a small warehouse near the outskirts of Carrara (the world's capital of marble). Before the inception of this company, the Nicolai brothers repaired tools for machinery in the Apuan district.

After over 30 years of serious and hard work, Nicolai Diamant is now a global company

---

**SINCE 1984**

100% Made in Italy

---

*Nicolai Diamant's Factory*

---

*Carrara, Tuscany*

# NICOLAI

D I A M A N T

*Our many years of research and innovation has allowed us to consistently manufacture high precision CNC tools. Thus, in pursuance of giving the end user the necessary assurances that our product is reliable, all tools go through several tests before leaving the factory door.*

---

---

*Today, Nicolai Diamant is no longer the small company of yesterday. It has expanded throughout the world and markets its products from USA to India; from Brazil to Russia. A group in which all employees have the same passion and the same goal for offering near perfect tools to the market; as well as an efficient service before and after the sales.*
